In an emergency,
always dial 999

You Said, We Listened, We Did

The problem which is having an affect on the ward is fly-tipping. We published good practice to deter the tippers and council contact numbers on social media. We subsequently received information which included a vehicle registration number. We have passed this information to Lewisham Council Enforcement and await their decision to prosecute

We have completed plain clothes operations to areas suffering motor vehicle crime and following stop and searches have made an arrest of a young male known for stealing from cars who had removed his tag and several arrests for possession of cannabis. We have also processed drivers and seized their vehicles for driving without insurance. These operations put doubts in the minds of offenders and deny them the freedom of the road.

We set up a crime prevention day at Halfords offering advice, free anti tamper screws and bike marking which was well received and hopefully prevented thefts. We are liaising with safer transport officers to offer this service in future

Good News Story

Officers from Catford South executed a drugs warrant at Broadfield Road which resulted in the recovery of cannabis.

We also responded to an incident near to the ward where during disorder a known gang member has produced a large knife with intent to stab other males. We chased and detained the male nearby and subsequently arrested him for possession of an offensive weapon

Crime prevention advice

Don't forget to cancel deliveries when you go on holiday and have someone clear your mail. Consider fitting timing devices to your lights and radio to give the impression you are residing
